## How to order

In order to keep our prices low, our terms of business are credit card payments or BACS transfer with order.

## Phone Orders

If possible, please first email the details of your order together with delivery address to [phil@bcwofficeproducts.com](mailto:phil@bcwofficeproducts.com). Please also remember to include your telephone number. If this is not possible, please telephone **0208 133 6709** Please have your credit card ready for payment

## Online Orders

Please log on to the website at [www.health-safety-signs.uk.com](http://www.health-safety-signs.uk.com) and use the online shopping system. You can enter in Order Codes using the search box on the top of the home page or in the search box in the left hand navigation pane. Please have your credit card ready at the point of checkout.

We use only the highest form of security and encryption to ensure your credit card details are not accessible to any other party.

Despite popular beliefs, ordering online is one of the safest means of using your credit card and additionally, credit cards are covered by fraud protection.

## Orders by cheque

Please note, **CHEQUES ARE ONLY ACCEPTED FOR ORDERS OVER THE VALUE OF £150.00**

Please either print out your shopping cart or prepare a purchase order and send it to us at the address below together with your method of payment. On receipt of your order / cheque, an invoice will be prepared and dispatched to you.

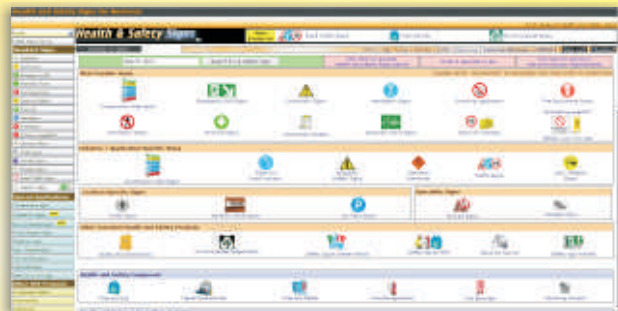

**Please note, goods will only be dispatched on receipt of cleared funds**

**Cheques are made payable to: BCW Office Products Limited.** Please contact us for details on how to pay by BACS / Internet Banking.

BCW Office Products

## Welcome

to your free health and safety signs guide and catalogue. Here you will find useful and essential information on legal requirements for health and safety signage plus a full catalogue of our full range of health and safety signs and equipment.

## What is required by law

For any new or existing business, it is your responsibility to ensure that the work environment is safe and that any potential hazards are marked clearly with appropriate signage. In terms of the law, you are legally required to display the Health and Safety Law Poster.

You are also legally required to report accidents using an accident report book

**No Smoking**  
It is against the law to smoke in these premises

It will be mandatory for all entrances to buildings (non private dwellings) to display a no smoking sign at EVERY entrance to the building. You will also have to display a non smoking symbol in any vehicle that has shared use (ie more than one person will travel in the vehicle). See our Smoking Ban section for more details on this.

## Fire Exit Signs Guide

British Standard Style

European Style

### DIRECTIONAL SIGNS

*Which sign should you use?*

You can use either a European style which has no text or a British standard style which has text.

In either case your signs must include a running man symbol  
It is not advised to mix the two styles

## possible meanings for fire exit signs

## Fire Exit Signs Guide - Final Exit Signs

To avoid confusions, it is advisable to have "Final Exit" signs at external points. These should have a running man symbol and text but no arrow

### Deciding Upon The Size And Height Of Installation

Viewing Distances

Size: 300x150mm  
up to 13m

Size: 600x200mm  
up to 20m

Recommended height for installation:

Above doors: 2.0m to 2.5m from floor level to bottom of sign

Wall Mounted: 1.4m to 1.7m from floor level to bottom of sign

### Fire Safety

One of the most important areas in Health and Safety is fire prevention, action and escape. An excellent starting place is with our Fire Risk Assessment Checklist booklet and Fire Risk Assessment Poster which will give you excellent help and advice.

Display a Fire Action Sign and doors that have been marked as Fire Doors must never be propped open. Also the emergency escape route must be kept clear of obstructions and be clearly marked out every step of the way by signage. Common signs for these purposes are shown on the left.

## Identify Risks And Keep Your Building Maintained And Safe

### Floors

If floors are being cleaned or polished or are inherently slippery, this must be addressed immediately with a **wet floor sign** or **slippery surface sign**

Additionally, if floorboards are damaged or uneven, trailing electrical cables are present then display a **trip hazard warning sign**

**Fire  
escape  
keep  
clear**

### Stairs

Keep stairs in good condition with good lighting and a well fixed handrail. Also make sure stairs are kept clear of obstructions. If in doubt, display a **keep clear sign**.

### Shelving

Make sure that items are easily retrievable without resorting to standing on a chair or desk. If it is unavoidable to have items high up, make sure that proper steps are used. It may also be advisable to create a sign to enforce this.

**Ladder  
must be  
used**

### Computer Display Screens

Working in front of a computer screen for over 3 hours a day could result in a repetitive strain injury (RSI). Make sure that desks are large enough to accommodate paperwork, monitor and keyboard. The screen should be free from glare and reflection. It is advisable to display the Health and Safety Display Screen Equipment Regulations poster

It is always wise to keep people informed of their health and safety obligations using an awareness poster

## Useful information about the Smoking Ban

**No Smoking**  
It is against the law to smoke in these premises

No smoking signs must be displayed in a prominent position at every entrance to smokefree premises. Signs must meet the following minimum requirements:

be a minimum of A5 in area (210mm x 148mm)

display the international nosmoking symbol at least 70mm in diameter

carry the following words in characters that can be easily read:

**'No smoking. It is against the law to smoke in these premises'.**

You are also free to personalise your signs by changing the words 'these premises' to refer to the name or type of premises – such as 'this gym', 'this salon' or 'this restaurant'

A smaller sign consisting of the international nosmoking symbol at least 70mm in diameter may instead be displayed at entrances to smokefree premises that are only used by members of staff – providing the premises displays at least one A5 area sign or are located within larger smokefree premises, such as a shop within an indoor shopping centre.

### For Vehicles

Smokefree vehicles will need to display a nosmoking sign in each compartment of the vehicle in which people can be carried. This must show the international nosmoking symbol at least 70mm in diameter.

### When will the new smokefree law start?

Sunday, 1 July 2007.

### Who will enforce the new law?

Local councils and port health authorities will enforce the new law and will have the power to appoint enforcement officers, such as environmental health officers, trading standards or local community support officers.

### Does the law just apply to cigarettes?

No, it covers all substances that a person can smoke. These include manufactured cigarettes, handrolled cigarettes, pipes, cigars, herbal cigarettes and water pipes (including shisha, hookah and hubblebubble pipes).

### Can I still have a staff smoking room?

No, but you can have an outdoor smoking shelter, although there is no requirement for you to do so. If you decide to, you will need to ensure it is not 'enclosed' or 'substantially enclosed'. You may also need to consider other issues such as planning, licensing and building control, noise and litter.

### Can I smoke in my own car?

Yes, the new law doesn't cover vehicles used primarily for private purposes.

### I share a work vehicle with another smoker. Can we still smoke?

No, the law is designed to protect smokers and nonsmokers from secondhand smoke. Smoking will only be permitted in work vehicles that are for the sole use of the driver and are not used by anyone else for work either as a driver or passenger.

### I work from home. Will it be required to be smokefree?

If more than one person uses any part of a private dwelling solely as a place of work, then it will be required to be smokefree.

### Does new smokefree law apply to premises and vehicles used for voluntary work?

Yes, the new law applies to all work, including voluntary work.

### I occasionally use my private car for voluntary work, will it need to be smokefree?

No, vehicles used primarily for private purposes will not need to be smokefree.

### Are no smoking signs required in heritage buildings?

Any premises required to be smokefree will need to display no smoking signs that meet the requirements of the new law prominently at entrances. The new law allows flexibility for signs to be designed and displayed in a way that fits the décor of premises.

### Where can I get more information?

For further information, visit [www.smokefreeengland.co.uk](http://www.smokefreeengland.co.uk) or call the Smokefree England information line on 0800 169 169 7. You can also ask your local council for advice and support.

### Awareness Posters

If you employ anyone in your organisation, you are required by law to display a Health and Safety Law poster. Also, depending on your work environment, you will be required to display other types of posters. Choose from a range of British and EU safety standards approved posters below. Each poster is available as is or with a stylish aluminium frame.

### NEW!! Fully Biodegradable Bin Liners / Refuse Sacks

All of these plastic products utilise an oxo-biodegradable additive which rapidly degrades the product when suitably discarded in landfill or left for a prolonged period in direct sunlight. The resulting residue turns in to a biomass nutrient that actually feeds the soil.

White kitchen Bin Liners - 584x762mm 160 gauge - Order Code: SSECO1 **£2.45**

White Large Bin Liners - 1473x737mm 150 gauge - Order Code: SSECO2 **£5.50**

The Health and Safety (Safety Signs and Signals) Regulations 1996 requires employers to use a safety sign where there is a significant risk to health and safety that has not been avoided or controlled by the methods required under the relevant law, provided the use of a sign

***the small amount of money you spend on a few signs could save you lots of money in accident claims and possible fines in the future***

*safety signs for the warehouse*

*safety signs for restaurants and kitchens*

*safety signs for building sites*

*safety signs for hotels*
